*Pima County Health Department explained the reasons behind their ordinance preventing animals in pool areas. They informed us that we would receive a violation of the health code and potentially create health risks. As one example, there are several diseases that can be transmitted from animals that chlorine will not kill. These diseases may be spread to the pool from the grounds and patios where animals have been present merely by water sprayed from hoses or by rainfall. For further questions, please feel free to contact the Pima Health Department.*

Showering before swimming is required.

Appropriate swimwear must be worn in the pool area. Children in diapers should wear rubber pants or swim diapers when using the pool.
